

# THE MOORINGS

*Built by Robertson & Caine to Moorings Specifications*

**4600**

**4 cabins - 4 heads**

*Designed in collaboration between The Moorings, architects Morrelli and Melvin and builders Robertson and Caine, the Moorings 4600 is a blue water cruising catamaran that combines spacious living accommodations, high quality construction and great performance. The Moorings 4600 is fully equipped with twin Yanmar 55hp engines, full electronics, generator and air conditioning as standard.*

*The raised helm station, for excellent visibility and ease of manoeuvres. Down below features four air-conditioned private staterooms with en suite heads and showers, plus additional forepeak berths, a fully fitted modern galley and a full size navigation station in the saloon. The signature "walk-through" access to the roomy cockpit and aft bathing platform, connecting the two transoms. As part of The Moorings' continued effort to protect our environment, solar panels have been fitted to new 4600's to increase battery life and reduce battery waste.*

## HULL

The hulls are of GRP construction with balsa core for strength, stiffness and insulation, using high quality materials

The hulls carry a comprehensive limited osmosis warranty from Robertson & Caine

An exceptionally shallow draft of 4 ft 5 in. / 1.35 m is achieved

The hulls are painted with EPA approved environmentally friendly anti-fouling

Both deck and hull are finished in white gel coat with the trademark Moorings striping and graphics

The deck has a moulded in nonskid pattern providing excellent traction even in the most severe conditions

The wide aft platform allows easy access to the boat and connects both swim platforms

A large opening allows walkthrough access from the aft platform into the cockpit.
