

The Moorings - Med Service Plan

The Moorings Med Service Plan is designed to assist with Fuel, water, and ice needs for your charter. Sail charterers can choose the Standard Plan, which includes fuel, or the Power Plan (Optional for Sail). Power charterers will automatically receive the Power Plan.

Due to the nature and availability of these items in Croatia, Greece, Spain and Turkey, a Med Service Plan is mandatory for charters in these Mediterranean destinations. Pricing is based on yacht size, and duration of your charter. Detail on items included and pricing for each plan is below.

Standard Plan (Sail Only) - Fuel Included
